About Us

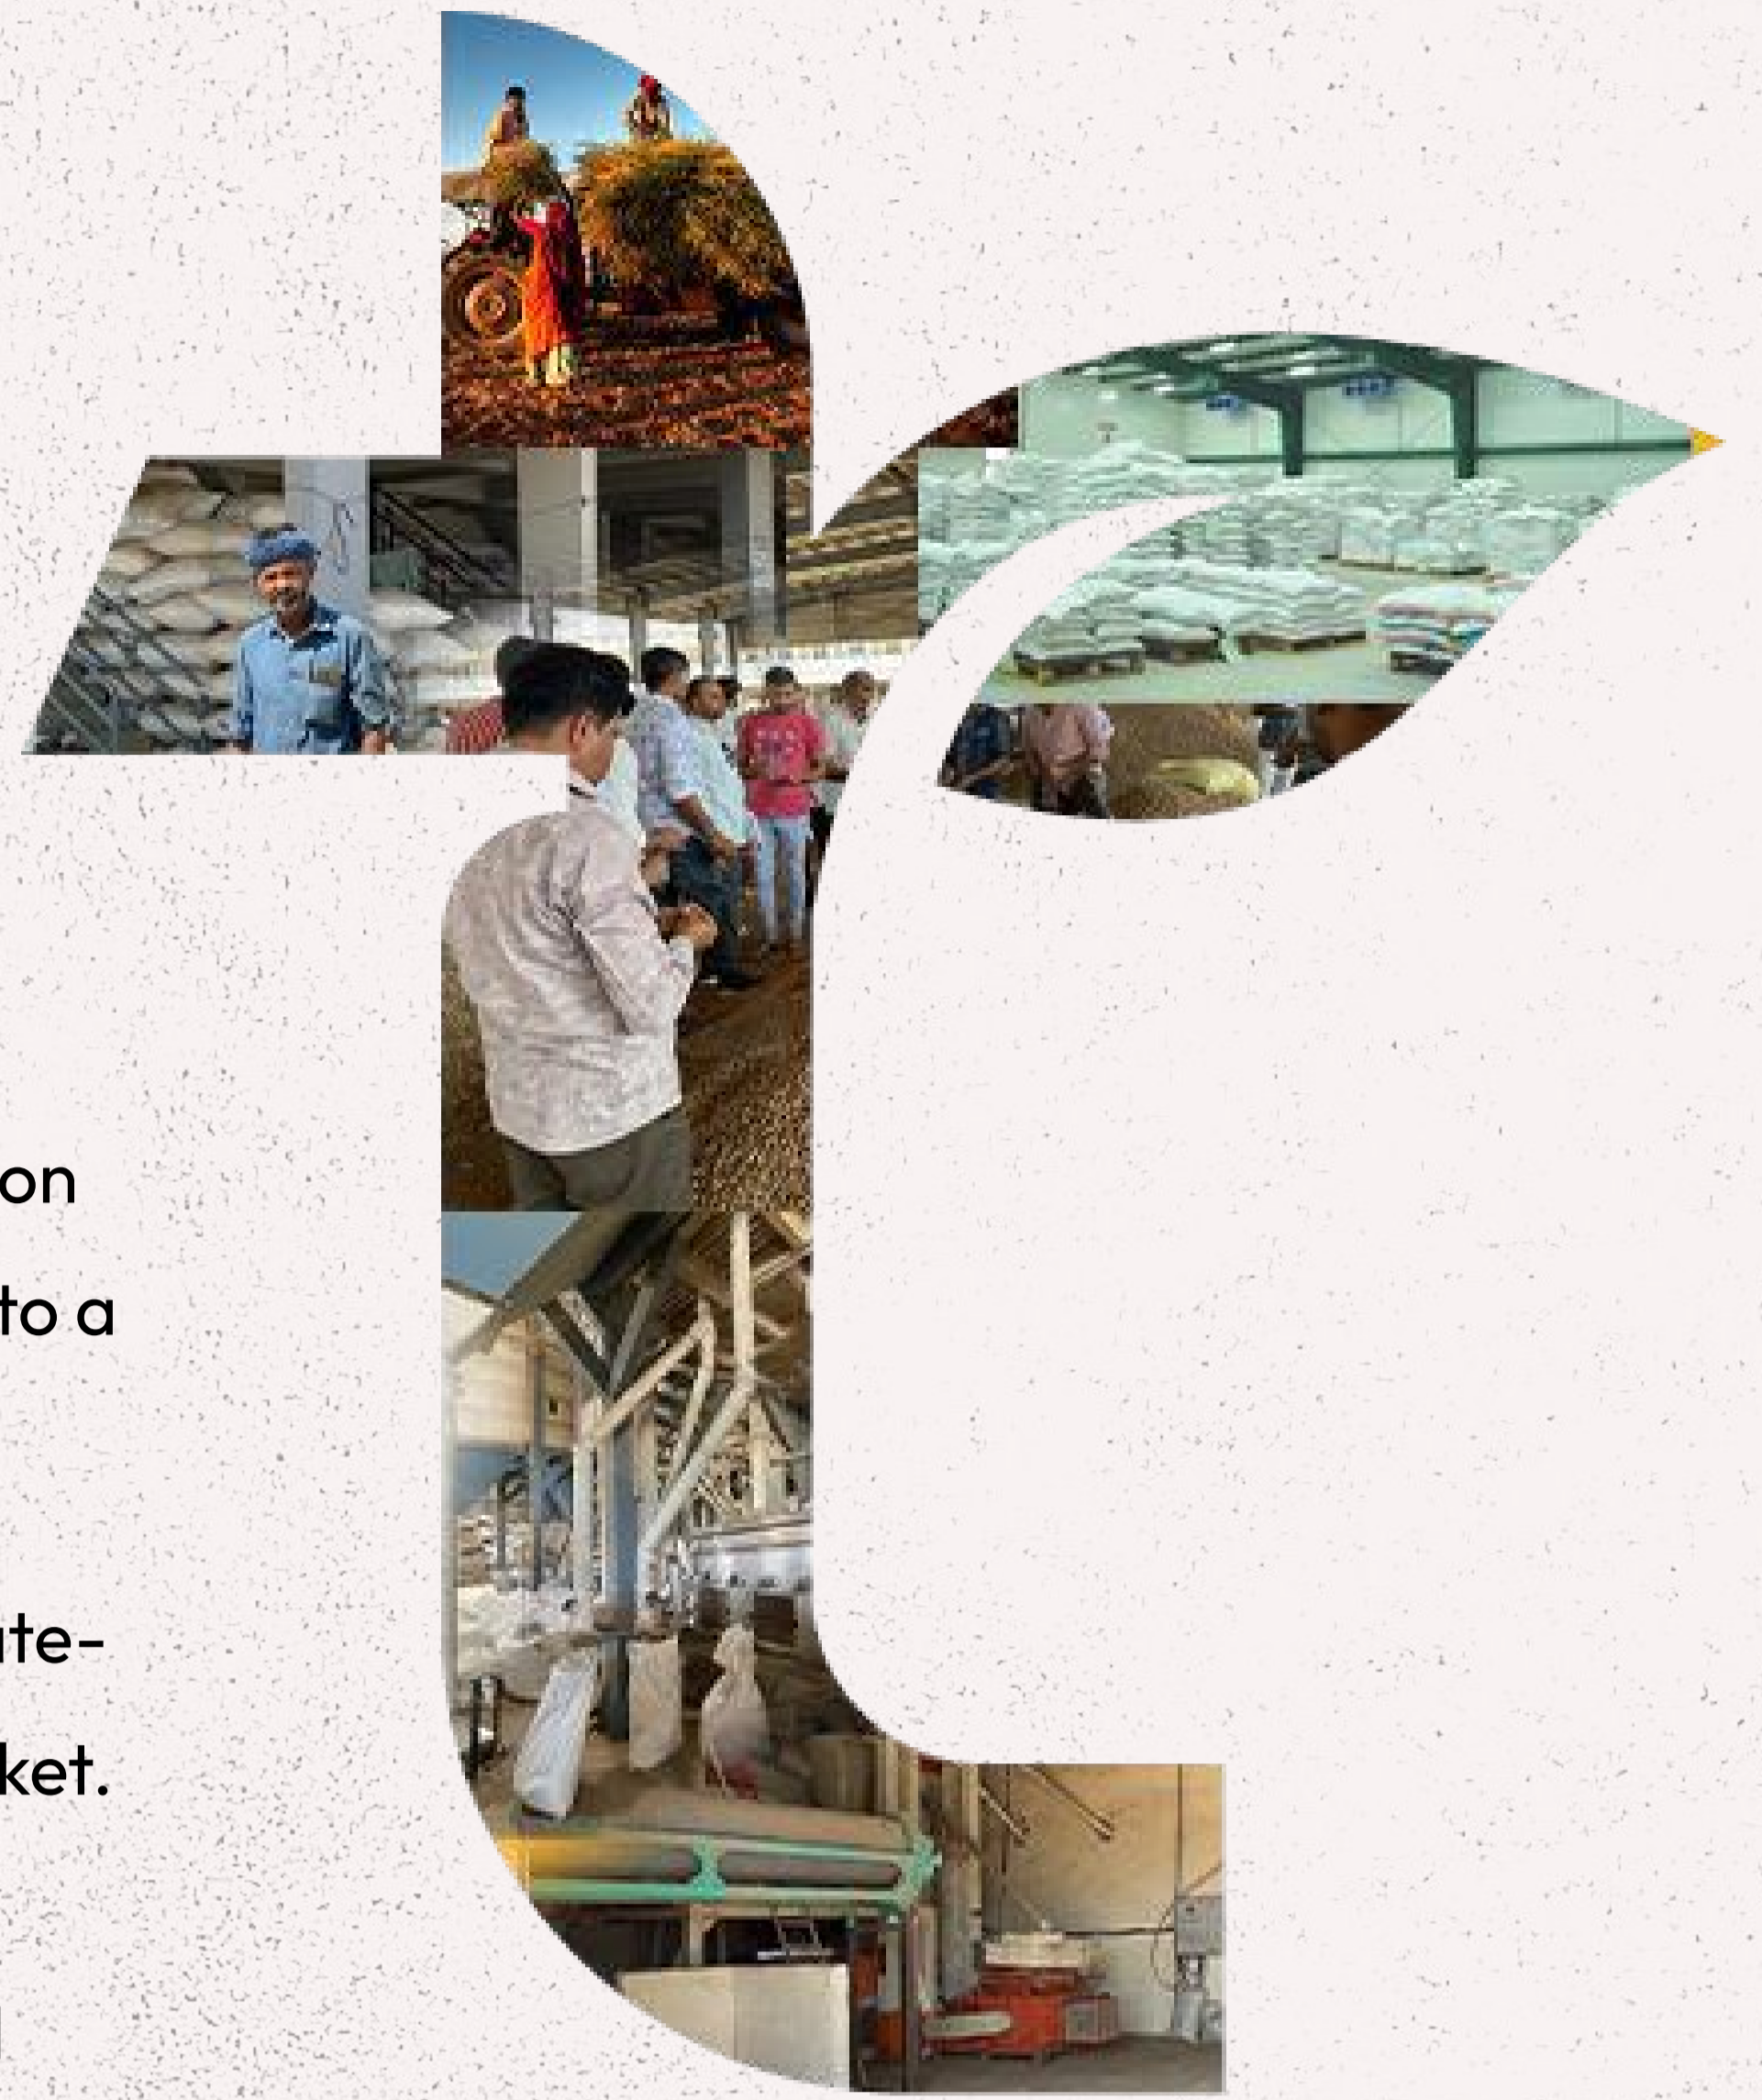

One Stop Shop for Agri Products.

TrusFarm is a leading manufacturer and exporter of a diverse range of agricultural and industrial products, including oilseeds, spices, grains, and pulses.

Based in Halvad, Gujarat, we take great pride in our heritage as a second-generation family business. Since 1997, we have grown from a domestic agricultural operation to a prominent player in the global agricultural market.

Our operations are supported by partnerships with advanced Sortex plants and state-of-the-art warehouses located in Halvad, renowned as the hub of India's spice market. All our products are cultivated and processed in strict accordance with the highest quality standards. Over the years, we have earned the necessary certifications and registrations from relevant global authorities, ensuring our commitment to quality and compliance

At TrusFarm, we take immense pride in our legacy as a second-generation family business, evolving from our roots in domestic agriculture since 1997 to becoming a key player in international agricultural market. At TrusFarm, we take immense pride in our legacy as a second-generation family business, evolving from our roots in domestic agriculture since 1997 to becoming a key player in international agricultural market.

Our Vision

To be a global leader in supplying premium agricultural products from India, renowned for our commitment to quality, sustainability, and innovation. Competitive Pricing

We offer the best market rates, ensuring value without compromising on quality.

04.

We are Professionals

We are a team of highly skilled and professional staff, committed to excellence and upholding the highest standards of work ethics.

05.

Reliable Supply Chain

Our strong network ensures timely delivery and consistent product availability.

Coriander Seeds

Indian coriander seeds (*Coriandrum sativum*) are a key spice in Indian cuisine, prized for their citrusy, nutty flavor and distinctive aroma. Primarily grown in Gujarat, Rajasthan and Madhya Pradesh, coriander seeds are used whole or ground in various spice blends like garam masala and curry powders

Quality Specifications

Moisture	:	12% Max
Grade	:	Eagle Whole & Split, Scooter, Single Parrot, Double Parrot
Purity	:	99%, 99.50% Min
Admixture	:	1%, 0.50% Max
ASH	:	9% Max
Acid insoluble ASH	:	1.5% Max

Cumin Seeds

Indian cumin seeds (*Cuminum cyminum*) are known for their distinctive earthy flavor and strong aroma, making them a staple in Indian cuisine and widely popular worldwide. Sourced primarily from Gujarat and Rajasthan, India is the largest producer and exporter of cumin seeds. Used in whole or ground form, cumin seeds are essential in spice blends like garam masala and are valued for their robust taste and versatility in cooking.

Quality Specifications

Moisture	:	12% Max
Grade	:	Singapore Quality, Europe Quality & Gulf Quality
Purity	:	99%, 99.50% Min
Admixture	:	1%, 0.50% Max
ASH	:	9% Max
Acid insoluble ASH	:	1.5% Max

Sesame Seeds

Sesame is one of the oldest oilseed crops, cultivated for over 3,000 years. India is now one of the largest producers and exporters of sesame seeds. Sesame seeds also have the highest oil content among seeds, making sesame oil a popular choice in global cuisines, especially in India. Grown mainly in Gujarat, West Bengal, and Tamil Nadu, sesame seeds come in white, black, and brown varieties, with white sesame being the most common for cooking and oil extraction.

Quality Specifications

Moisture	:	12% Max
Grade	:	Hulled sesame, Natural sesame
Purity	:	99.90% Min
Admixture	:	0.10% Max
Oil	:	48% Min
FFA	:	2% Max

Fennel Seeds

Fennel seeds (*Foeniculum vulgare*) are harvested from various fennel plant varieties belonging to the carrot family. Known for their sweet, licorice-like taste and powerful aroma, fennel seeds are a popular digestive aid in India, often consumed after meals in their roasted form, known as "Saunf." Their minty flavor and chewy texture make them a natural mouth freshener, enjoyed for both taste and oral hygiene.

Majorly cultivated in Gujarat and Rajasthan, they are typically harvested between March and June. Organic Products India is one of the leading manufacturers, suppliers, and exporters of top-quality fennel seeds worldwide.

Quality Specifications

Moisture	:	12% Max
Grade	:	Singapore Quality, USA Quality, Gulf Quality & Europe Quality
Purity	:	99.90% Min
Admixture	:	1%, 0.5% Max.
Acid insoluble ASH	:	1.25% Max

Peanut

Indian peanuts (*Arachis hypogaea*) are a staple in global cuisine and a valuable export commodity. Known for their rich, nutty flavor and high oil content, peanuts are a versatile ingredient used in snacks, confectionery, and cooking oils. Primarily cultivated in Gujarat, Andhra Pradesh, and Tamil Nadu, Indian peanuts are highly regarded for their quality and taste.

Quality Specifications

Moisture	: 7% Max
Grade	: Jawa, TJ , Bold, Blanched
Purity	: 99%
Admixture	: 1% Max
Oil Content	: 42-50%
Aflatoxin	: 15 ppb Max

Guvar Gum

Gum Guvar, or Guar Gum, is a natural thickening agent derived from the guar plant seeds, primarily grown in India. It hydrates quickly, forming a viscous gel, making it ideal for food products like sauces and gluten-free items. Additionally, it serves various industrial applications, including textiles and pharmaceuticals.

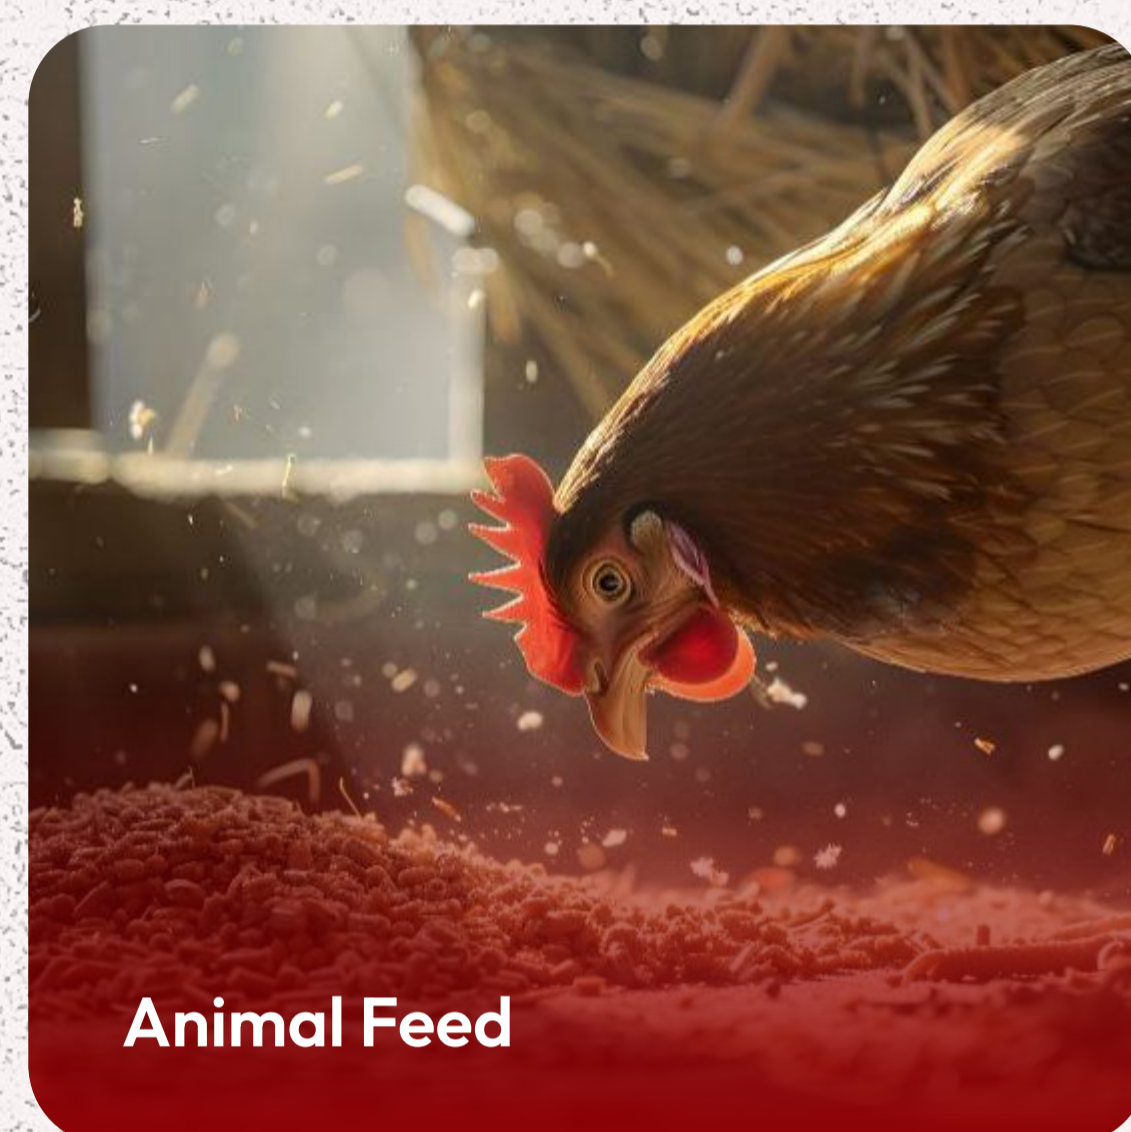

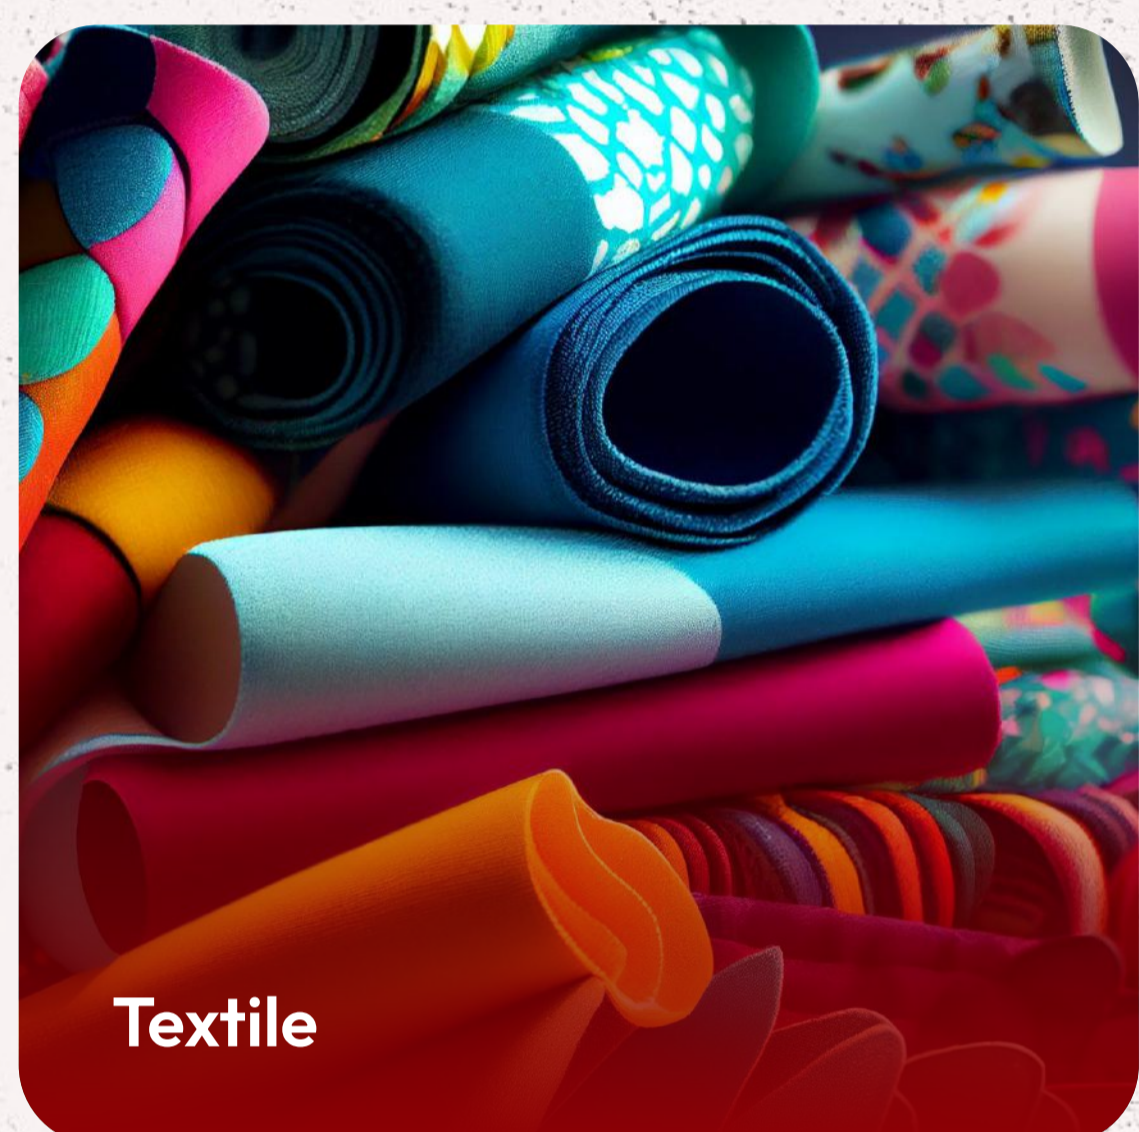

Quality Specifications

Purity	: 99.50%, 99.90%
Admixture	: 0.50%, 0.10%
Oil	: 37% Min

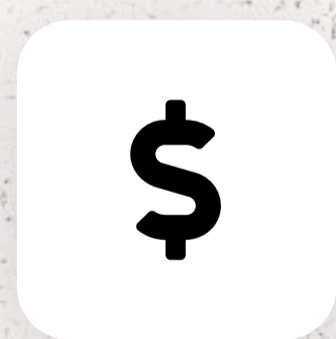

We supply to these **Industries**

We proudly cater to diverse industries, delivering premium agricultural and industrial products worldwide.

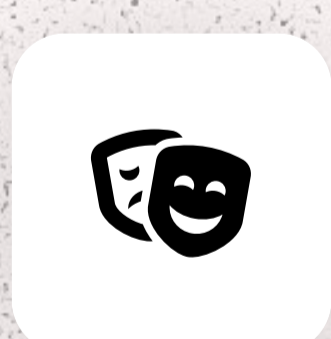

Say Good **Bye** To

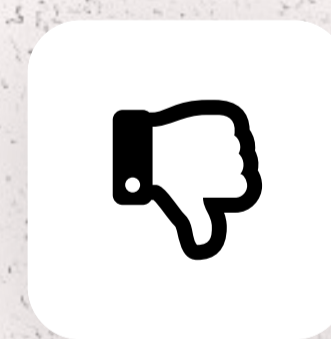

Eliminate challenges like price volatility, delays, low standards, and trust issues with our reliable and efficient supply solutions.

Price Volatility

State Of The Art Infrastructure

At TrusFarm, we are committed to provide the best quality products to our customers worldwide. To achieve this goal, we have invested heavily in deploying cutting-edge technologies and infrastructure.

Warehouses

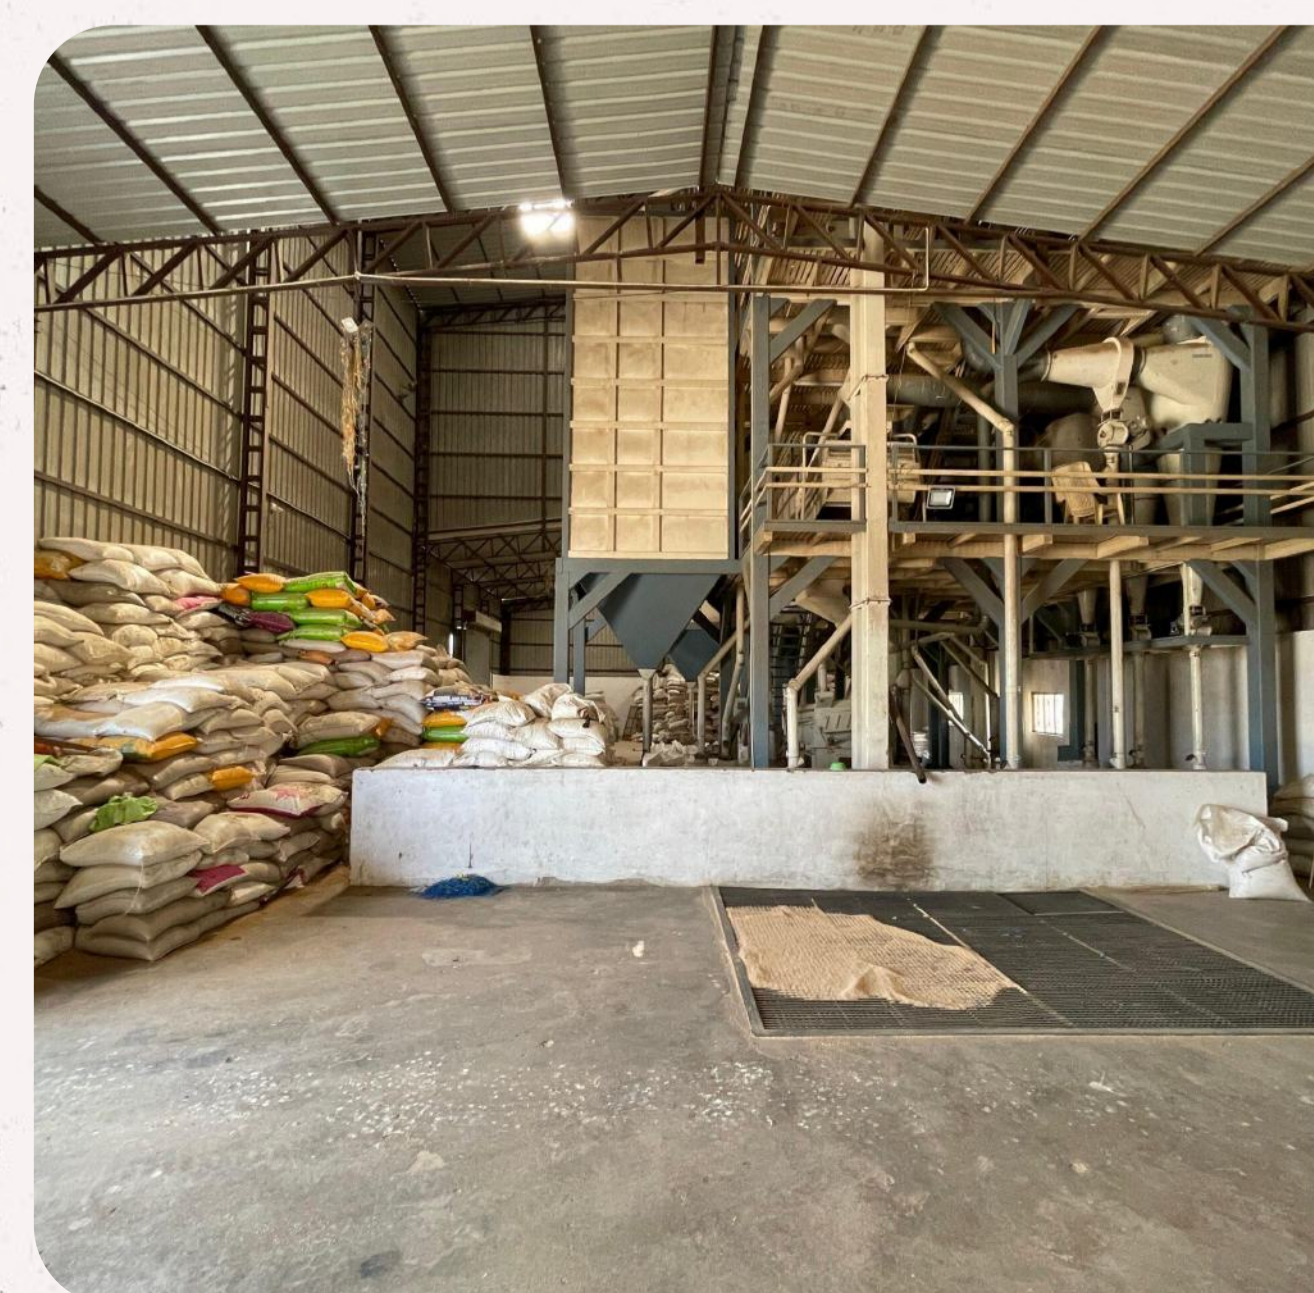

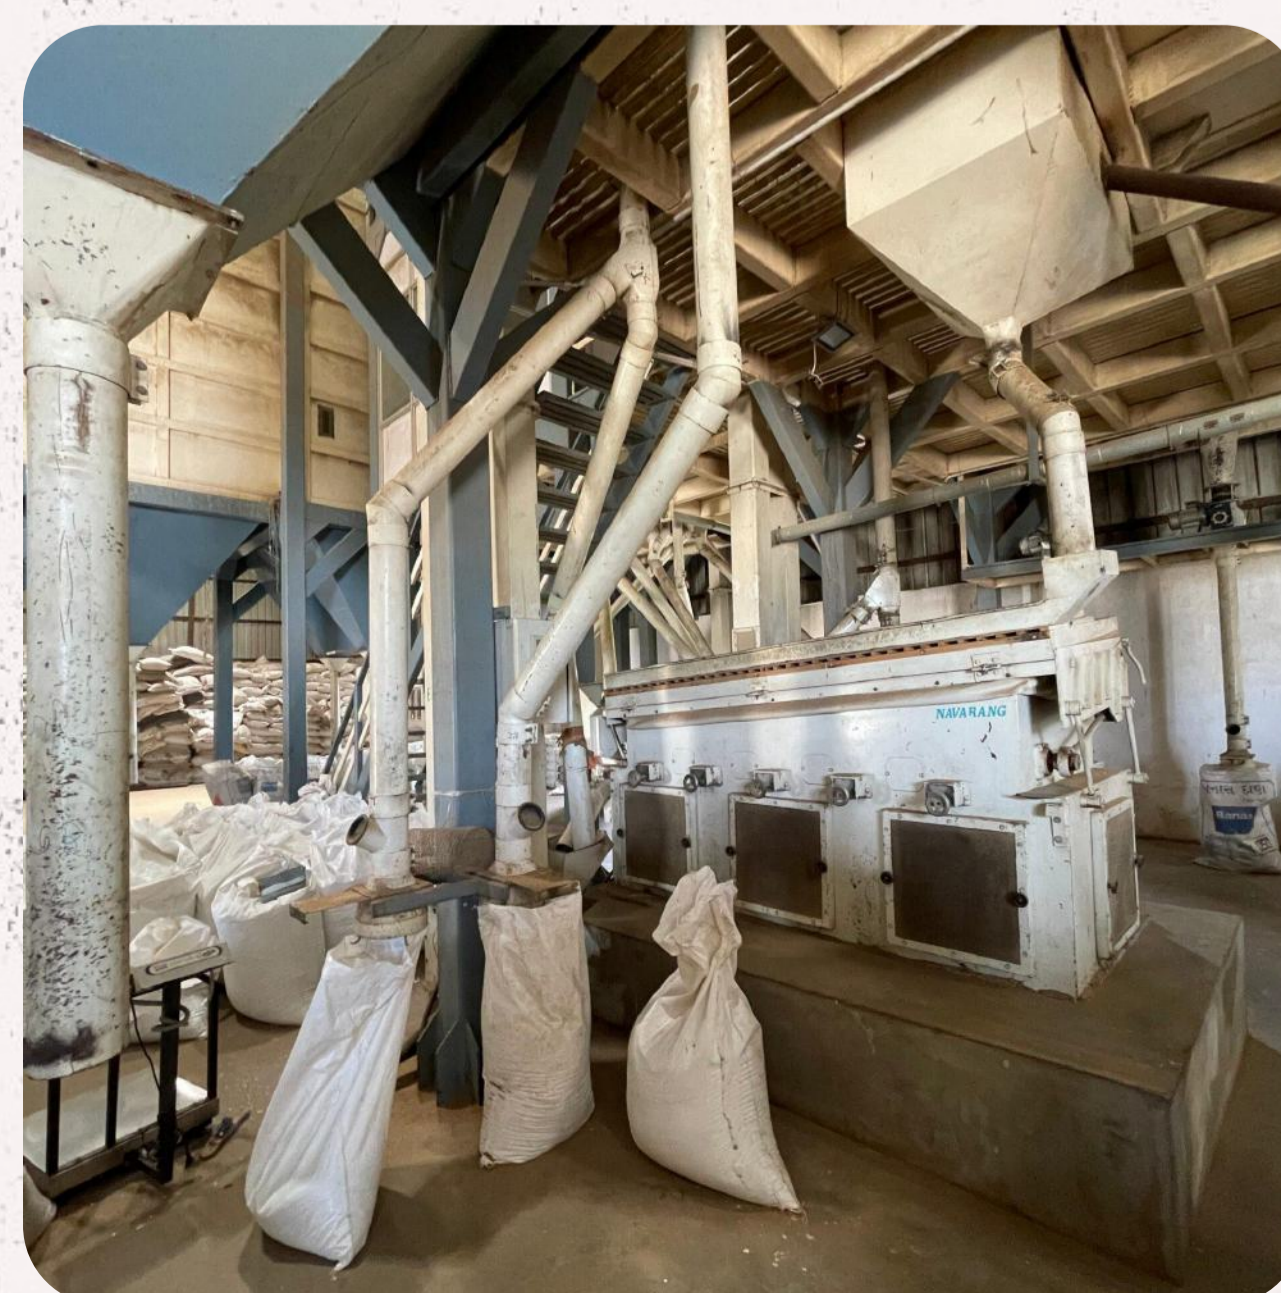

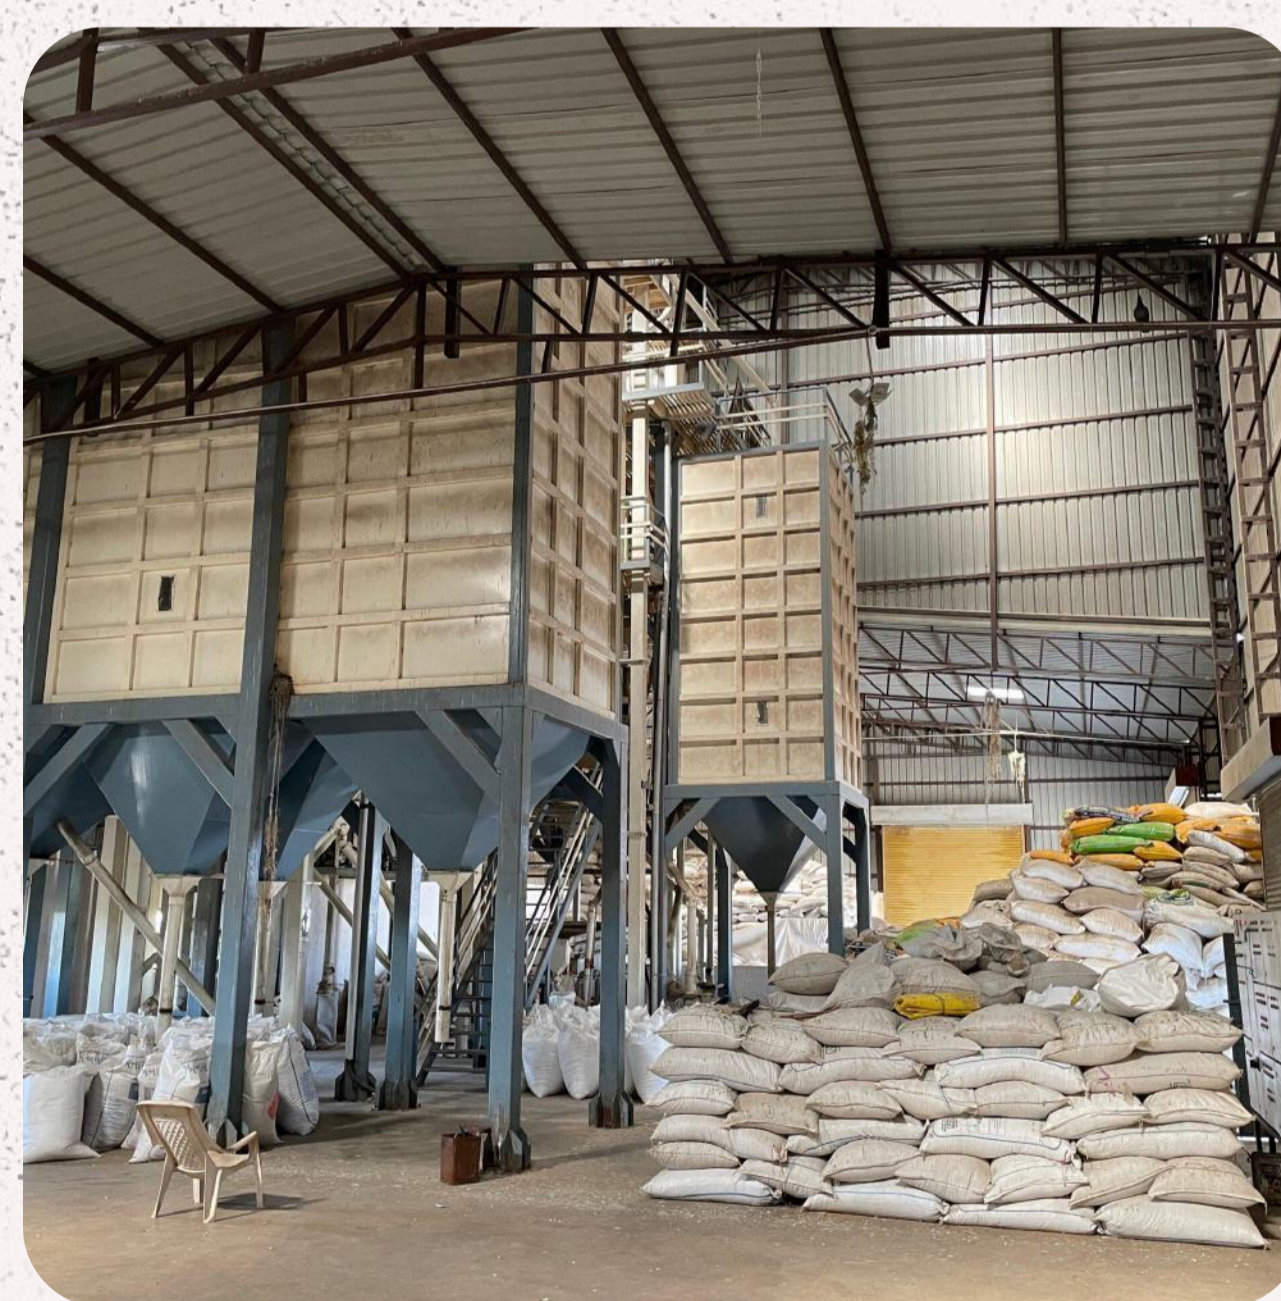

We store our products in five food-grade warehouses equipped with specialized facilities to meet strict hygiene and handling standards. These warehouses are designed to ensure optimal food safety, preserving the quality and freshness of our products.

By adhering to stringent regulations, our storage solutions help extend the shelf life of our products while maintaining their premium quality. These facilities reflect our commitment to delivering safe and reliable goods to our customers across domestic and international markets.

Sortex Plants

We operate three state-of-the-art, zero-contact Sortex plants near Halvad, Gujarat, equipped with advanced machinery for precision sorting. These fully automated facilities ensure a hygienic process with no human touch, significantly reducing contamination risks. Ideal for food-grade products, they utilize cutting-edge optical and color-sorting technologies to deliver unmatched accuracy and consistent quality.

Designed for efficiency and sustainability, our Sortex plants optimize energy use and minimize waste, reflecting our commitment to responsible practices. With these facilities, we ensure premium-quality products that meet global food safety standards, making them a trusted choice for both domestic and international markets.

Our Certifications

Certified by top national and international bodies, our products meet FSSAI and Spices Board of India standards with thorough lab testing.
